

2016 South Central District Fall Fire School

Platte Fire Department

October 9, 2016

Live Fire Training – Live Fire Attack and Technique Training – 8 Hours

Training will consist of a short AM classroom session covering basic principles of firefighter safety, SCBA and fire streams. The remainder of the AM and all afternoon will be spent doing hands on training with Live Fire. Participants will put their knowledge and skills to use in the two-story Mobile Live Fire Training Unit. This hands on training will simulate conditions encountered in actual interior structure fires (live fire, heat, humidity and smoke). During the evolutions the student will be able to practice SCBA usage, emergency SCBA procedures, hose handling, nozzle techniques, fire attack, ventilation and more. Students will have the opportunity to practice multiple fire attack scenarios including ground level entry and basement fires as well as rescue procedures. Any students needing to fulfill the 'Live Fire Training' portion of their SD FF Certification Yellow Card should bring it to class. If all pre-requisites are met the applicable hands on tasks on the Yellow card will be signed. **Equipment Requirements:** Students must have full Structural PPE (including hood) and SCBA in **GOOD SERVICEABLE condition** that was NFPA compliant at manufacture date. If possible a spare SCBA cylinder should be brought as well.

Instructors: Platte Fire Department MLFTU Cadre

Courage to be Safe (CTBS): 4 hour class, morning

This course is a provocative and moving presentation by the National Fallen Firefighters Foundation, through the Everyone Goes Home® Program, that is designed to change the culture of accepting the loss of firefighters as a normal occurrence. Building on the untold story of line of duty death survivors, it reveals how family members must live with the consequences of a firefighter death. This presentation provides a focus on the need for firefighters and officers to change fundamental attitudes and behaviors in order to prevent line of duty deaths. The central theme promotes the courage to do the right thing in order to protect yourself and other firefighters and ensure that "Everyone Goes Home" at the end of the day. Firefighters must have the courage to face a multitude of risks in order to save lives and protect their communities. Their courage allows them to willingly risk their own lives so that others can be saved. A different type of courage is required to stay safe in potentially dangerous situations, avoiding needless risks and tragic consequences.

Instructor: Mike Erickson, State Fire Marshal's Office

Leadership, Accountability, Culture and Knowledge (LACK): 4 hour class, afternoon

Is your department on the path to a LODD? This compelling presentation by the National Fallen Firefighter Foundation examines the root causes of LODDs and the role of Leadership, Accountability, Culture and Knowledge as it influences the end result. Many fire departments across the United States "LACK the Right Stuff" to prevent them from being on a path to a line of duty death, with Leadership, Accountability, Culture and Knowledge being the elements that need to be addressed and managed in those environments. Through education and training, those departments can improve their survivability by understanding the root causes of firefighter fatalities and tackling these four elements with special emphasis on understanding fire service culture.

Instructor: Mike Erickson, State Fire Marshal Office

SCHEDULE

8:00 a.m. – 9:00 a.m.	Registration @ Platte Fire Station
9:00 a.m. – 12:00 p.m.	Classes
